

PRODUCT CATALOGUE

Millano Group was established over forty years ago. The long period of its business operation helped to acquire wide production experience and excellence in combining ingredients to create unique chocolate taste compositions. Production is closely monitored and carried out on a continuous basis, using fully automated and electronically controlled closed equipment. The company owns three production plants and its machinery resources produce several hundred tons of end-products per 24 hours. Owing to such a wide scale, the company is able to operate on the domestic and many foreign markets. At present, Millano cooperates with European and global distributors. Our care for ingredients emphasises the original taste

of the wide range of pralines, chocolate and assorted chocolates with intense nuances of cocoa originating e.g. from Western Africa, including the Ivory Coast. The wide portfolio of the company covers brands dedicated for different market segments and catering for diversified customer needs. **Baron, Pomorzanka, Hibbi, Singers** are the brands that take customers to the fascinating world of chocolate sensations. The varied range of products, combined with state-of-the-art technology and passion of the team, makes Millano an important player on the market of chocolate products and confectionery in Poland and abroad.
